

ISAAC SBAI METAICH

Master student of Robotics

PROFILE

I am a passionate and dedicated master student with a huge interest in the intersection of technology, engineering, and innovation.

SKILLS

- CAD (Fusion360, AutoCAD).
- Programming (MATLAB, C, C++, Python, Arduino, VHDL, Rapid, ROS2).
- Automation.
- Fast learner.
- C1 English level.
- B1 French level.
- Native Spanish.

EDUCATION

Málaga University, Spain
Bachelor's degree in electronic, robotics and mechatronics engineering
2020 - 2024
During the four years of my degree, I have learned the fundamentals of engineering, gained a solid foundation in electronics, robotics, and mechatronics, and specialized in the field of automation.

Machine learning and visual data analysis course, Spain
2023 - 2024
During this short term course, I learned about classification algorithms, data preprocessing, model evaluation, and regression algorithms in Python.

Aalborg University, Denmark
Master in Robotics
2024 - 2026
I am currently pursuing a Master's in Robotics to further specialize in the field and gain a deeper and more detailed understanding of the subject.

EXPERIENCE

Macco Robotics, Internship
2024 - 2024
Internship as Robotics engineer in the hardware department.

Participant of Skapalab MakerSpace
2022 - 2024
During my time as a participant in the SkapaLab makerspace, I worked on personal projects, designing and programming, and repairing electronic devices. The projects I undertook in this makerspace were aimed at deepening my knowledge of electronics and programming in a more hands-on and practical way.

Student assistant in Aalborg University
2025-2026
Worked on applied robotics projects, supporting hardware/software integration and experimental testing in a research environment.
